Queen City STEM School Goes Digital Starting on March 16, 2020

CHARLOTTE, N.C. (March 14, 2020) – After careful consideration, Queen City STEM School Board has made the decision to move Distance Learning forward due to the Covid-19 virus effective Monday, March 16, 2020. This is an effort to protect our students, staff, and community, and to slow the spread of the virus.

The distance learning will take place over four weeks:

Week 1: (03/16/2020 - 03/20/2020).

“Asynchronous” distance learning – similar to the previous digital days format

Week 2: (03/23/2020 - 03/27/2020) Spring Break

Early Spring Break for QCSS

Week 3&4: (03/30/2020 - 04/10/2020)

This will involve “Synchronous” or live video distance learning

During this time, we will continue to actively assess and monitor all aspects of this rapidly changing situation. All schools will resume their normal schedules on Monday April 13, 2020.

About Queen City STEM School

Queen City STEM School (QCSS) is a Public Charter School focuses on science, technology, engineering, and math (STEM) for elementary, middle, and high schools in Charlotte, NC. With a well-defined STEM curriculum, QCSS creates a safe, nurturing, engaging, caring, and culturally-responsive learning environment to build a strong school-family-community relationship in today’s globalized, technology-based society. Students are equipped with strong core knowledge and higher-order skills, including critical and creative thinking, problem-solving, effective communication, and collaboration skills for an enriching educational experience.
